## Contact SW

Special spray wash

## Fields of application:

Contacts, electrical components and elements, PCBs, relays, connector strips etc.

## Properties:

Contact SW is a solvent-based aerosol product for cleaning electrical contacts of all kinds. The product's special solvent mixture enables the residue-free removal of dirt and moisture from electrical contacts, which can hinder current flows. In addition, unwanted leakage current caused by obstructing dirt is removed, restoring the functionality of the electrical contacts. Causes no damage to plastics or the most common design materials.

## Application:

Spray the product onto the areas to be cleaned or corresponding parts.

## Technical data:

Volume	200ml
Colour	Clolourless, clear
Aerosol can pressure (20°C)	Approx. 6500hPa
Propellant	Carbon dioxide
Chemical basis	Solvent
Density (active ingredient) (20°C)	Approx. 0.75g/ml
Container type	Aerosol

## Notes:

Before the electrical equipment is restarted, Contact SW must be completely dry.

Work must not be carried out on live parts.

The product is highly flammable. Container is pressurised. Protect from sunlight and temperatures over 50°C. Check the material compatibility of the product before use.
